Meet Teacher Rolly Alano

My name is Rolly B. Alano and I am so excited to work with you and your child. It's going to be a year full of fun, learning, lots of adventure and travels because this year our theme is travelling across the globe. I am fairly new to Spectrum Center, it is my first time teaching here. My hometown is Camarines Sur, it is a small and lovely town in the Philippines. I graduated Bachelor of Elementary Education Major in Special Education and earned Masters Degree teaching children with Autism. A few of other things about me is that I use to be a tournament manager where I'm the one organizing sports events for children with special needs, sports like bocce, goal ball and swimming. I love outdoor activities like hiking, camping, biking and canyoneering. I usually eat Filipino food but fond eating tacos, bread and any kind of salads. I usually drink coffee every morning to warm my body but the rest I prefer water.

Meet Teacher Nicolette Caron-Graham

I began my career in education at Minneapolis Public Schools in Minnesota, where I worked as a special education assistant for many years before going back to school at Augsburg University in Minneapolis to earn my bachelor's degree in special education. I taught Special Education at Minneapolis Public Schools for over ten years before coming to California to be closer to family. I enjoy focusing on the strengths and talents of individual students and encouraging them to use their strengths to overcome difficulties. I believe that all students can learn, grow and lead meaningful satisfying lives. I would describe my teaching style as encouraging, patient, and relentlessly persistent.
