

Happy New Year

Rossier Park School Junior/Senior High is expanding its Hybrid Classes and Cohorts. We have safely added more days to our Cohorts and have gone from students coming 2 days a week to 4 days in some classrooms.

As instruction continues in-person and remotely, we continually measure both Synchro- nous and Asynchro- nous learning. We update student logs. Drop off and pick-up packet work.

Ms. Ramirez Junior High teacher

Counseling Corner: Our counselors are fortunate to see their students on-campus during their students cohorts and also through **Teletherapy**. All staff are participating in a companywide **Suicide Prevention training this month**. The campus wide focus is on student well being.

Spectrum Center
SCHOOLS AND PROGRAMS

Mr. Yousif's Academic classroom started the New Year focusing on improving the **student well-being**. They established a classroom chart of healthy foods to incorporated into everyday life. This included fresh fruits, veggies, freshly cooked meals while staying away from processed, frozen, fast/junk foods. They incorporated a quick daily 20 minute workout routine to increase flow and circulation. And lastly, they started a 10 minute daily journal to help keep the mind clutter free, sharp and focused on the goals at hand.

Point and Level System; Incentives include; gift cards, food and Zooming with preferred staff.

Our data supports the students progress and success

Our Functional classrooms have been focusing on science and the solar system. **Ms. Guillen's class** finished a unit on the moon which included the students tracking the moon daily in their home journals either drawing or writing the moons phase.

Vocational training has focused on learning the dollar-up method and how to grocery shop. Including how to write grocery shopping lists, price checking and putting groceries away.

Ms. A. Cosio, Ms. Y. Cosio, Ms. Lorenz and Ms. Guillen
