

Peninsula Campus March 2021 Newsletter

Distinguished Program Award

Peninsula Campus received the ChanceLight Distinguished Program Award for the 2019-2020 School Year. The Accountability Rating of Distinguished Programs recognizes overall excellence and progress in academic/skill growth and student engagement. The award is a culmination of the hard work of our educators, students, and families. Distinguished Program recipients received a certificate that is displayed on campus!

Congratulations Peninsula Campus !

Adult Day Program Presentations

Peninsula Campus hosted Partners for Independence (PFI) on March 11, 2020, to kick off their annual Spring adult day program tours. This year, the tours have been scheduled virtually, in order to accommodate current restrictions. PFI is located in San Mateo and Burlingame, and provides an array of services to adults with disabilities.

Adult Day Program tours allow our educators to help our young adult students and their families identify potential and appropriate adult day programs. Peninsula Campus's goal is to prepare our young adults for the transition by teaching them independent living skills that they can apply to everyday living.

Upcoming Events

Spring Break April 5-9, 2021

AbilityPath Presentation

- ◆ April 14 at 5:00pm (Zoom)

Janet Pomeroy Center Presentation

- ◆ April 26 at TBD (Zoom)

San Mateo County moves into Orange Tier!

On March 17, 2020, San Mateo County has been placed in the Orange Tier of the state's four tiered color codes system. "This is an important milestone for San Mateo County and every resident should be proud of the role they played in bringing us here by continuing to wear a mask, social distance, test and receiving the vaccine when they are eligible," said Board of Supervisors President David J. Canepa.

Additional vaccine opportunities are coming! Check out myturn.ca.gov to schedule your appointments.
