Classroom	Grades served	Current Enrollment	Vacancies/ Available seats
10	3rd-6th	11	1
11	1st-3rd	10	2
12	TK-1st	11	1
13	PreK-K	9	3

Campus Update

Hybrid Learning

Spectrum Jurupa is continuing to provide options for a hybrid or 100% distance learning model of instruction based on parent preference. Students participating in our hybrid model currently attend in-person instruction three days a week from 12:00pm-2:00pm. In-person instruction continues to focus heavily on student IEP goals, developing social skills, and improving functional and adaptive living skills (e.g., washing hands, wearing masks, cleaning up their personal areas, and communicating their wants and needs appropriately). All students also continue to receive multiple synchronous lessons with their teachers throughout the week, an individualized weekly lesson plan, and supplemental packet work delivered directly to the family's home each week. During synchronous lessons, students are pulled to work on their IEP goals 1:1 with a staff member from their classroom, and participate in whole group and/or small group activities aimed toward academic subjects and functional skills.

Leadership Team Update

Spectrum Jurupa is excited to announce that staff member Cera Rivera has taken on the new role of our Behavior Coordinator! Ms. Rivera was most recently in the role of an Instructional Aide, supporting Ms. Fleming's classroom. She has consistently shown great strength in the areas of behavior modification and leadership. Her many years with Spectrum Jurupa has allowed her to establish strong relationships with the students, families, and other staff members. We are excited for her to begin her new role on Monday, April 26th!

As Ms. Rivera takes on the Behavior Coordinator role, Ms. Kayla Wells will be stepping up as the Interim Program Director for the Spectrum Jurupa campus. Also supporting the leadership team is our new Administrative Coordinator, Amanda Laird. Ms. Laird has worked with Spectrum Center Schools supporting another campus in the past, and we are excited that she has come to help out the Jurupa campus moving forward. Welcome to the team, Ms. Laird!

"If you've met one person with autism, you've met one person with autism."

-Stephen Shore

Autism Acceptance Month

April 2021

April is National Autism Acceptance Month! At Spectrum Jurupa, all of our current students have a primary diagnosis of autism. Let's take a look at a few quick facts about autism, so we can raise our awareness!

- Autism now affects 1 in 54 children.
- Boys are four times more likely to have autism than girls.
- Autism greatly varies from person to person (no two people with autism are alike).
- Autism impacts the normal development of the brain in the areas of social interaction, communication skills, and cognitive function. Individuals with autism typically have difficulties in verbal and non-verbal communication, social interactions, and leisure or play activities.
- The rate of autism has steadily grown over the last twenty years.
- Comorbid conditions often associated with autism include Fragile X, allergies, asthma, epilepsy, bowel disease, gastrointestinal/digestive disorders, persistent viral infections, PANDAS, feeding disorders, anxiety disorder, bipolar disorder, ADHD, Tourette Syndrome, OCD, sensory integration dysfunction, sleeping disorders, immune disorders, autoimmune disorders, and neuroinflammation.
- Autism is the fastest growing developmental disorder, yet most underfunded.

Meet Our Staff

Ms. Cera Rivera

Ms. Rivera began her journey with Spectrum Center Schools in 2016. She began as an Instructional Aide and is now taking on her new role of Behavior Coordinator. She will be assisting the campus in developing and implementing ABA strategies to increase desired student behaviors and decrease undesired behaviors, monitor student IEP data, and assist in facilitating IEP meetings with families. Ms. Rivera recently graduated from Arizona State University, where she earned her Master's degree in Special Education, with an emphasis in Applied Behavior Analysis. She loves watching our students get older and accomplish skills they may have not had before!

Outside of her time at Spectrum, Ms. Rivera enjoys a variety of activities such as hiking, playing tennis, swimming, watching sports, and shopping. She also loves to do makeup and hair, which was actually her original career path. She shortly realized it was more of a hobby, and switched over the field of special education. She enjoys working with kids, and plans to buy a house and have a family of her own someday.

Congratulations on your new role, Ms. Rivera!
