II. About This School

School Description and Mission Statement

About this school:

Spectrum Center Schools have been serving special needs students with since 1975. We are a California Department of Education certified nonpublic school program.

The Spectrum Center Chino Valley Campus program is designed for student's grade 6- 12+ who exhibit challenging behavioral, social and academic special education needs. Student population represents a wide array of disabilities. The school has 60 students served in 4 classrooms with a credentialed Special Education teacher and specially trained paraprofessionals.

The school provides a menu of education and related services in the areas of academics, independent living, community integration, recreation/leisure, and vocational training. Communication is addressed across all skill domains. Students also learn social interaction skills across all activities.

Our behavior analytic, data-based approach evaluates curricular, environment, intra-personal and interpersonal variables in designing non-aversive behavior programs to teach pro-social behaviors. Some of our standard evidenced based practices include:

- Applied Behavioral Analysis
 - Functional Analysis
 - Positive Behavior Intervention Plans
 - Positive Behavioral Supports
- Curriculum and Instruction
 - State Standards Implementation
 - Direct Instruction
 - Computer Assisted Technology
 - Discrete Trial Training
- Ongoing Progress Monitoring
 - Curriculum Based Measurements
 - Content based Assessments
 - Standardized Assessments

Data is collected on academic achievement and on each Individualized Educational Plan (IEP) goal weekly. The data is reviewed monthly to assess the student's progress. Lessons plans are revised as needed to assure student learning. A progress report and/or report card is completed for every student and is provided to both the parent and LEA quarterly per the IEP and master contract.

Spectrum Center Schools monitor progress on targeted campus goals quarterly. An Internal Accountability Review is conducted annually.

Mission Statement:

Our mission is to provide personalized, evidence-based educational services for non-traditional learners in collaboration with families and public school districts.

Opportunities for Parental Involvement

Parents are involved in the student enrollment process, parent/teacher conferences, IEP development and approval.

There are opportunities for parents to attend school events such as, open house, talent show, and parent teacher conference. These events give parents/care-providers the opportunity to see what their children are learning and how much they are working on building their social skills. Parents/care-providers also have the opportunity to meet other parents/care-providers, which can help with finding out resources for their children and themselves.

Teachers communicate with parents on a daily or weekly basis to touch base and share how the child's day/week went as well as ask for parent input.

When needed, Spectrum Center has provided trainings to help parents with challenges at home, such as ABA principles, video modeling for those with Autism, as well as other training.

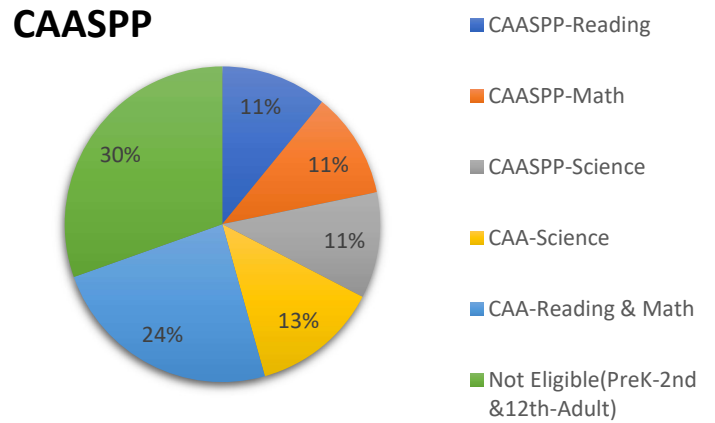

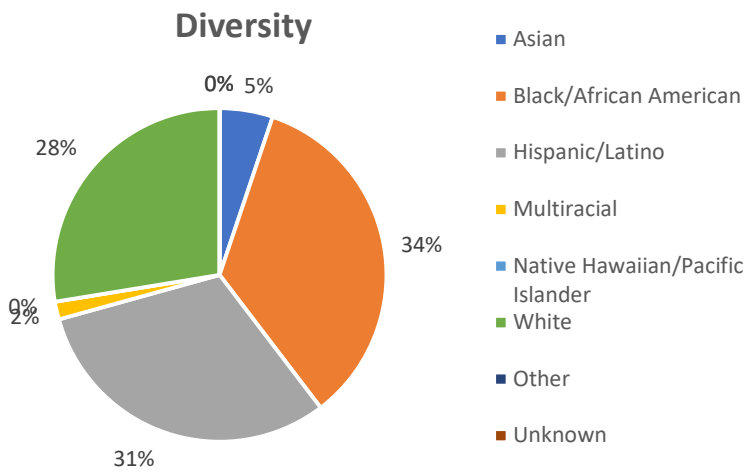

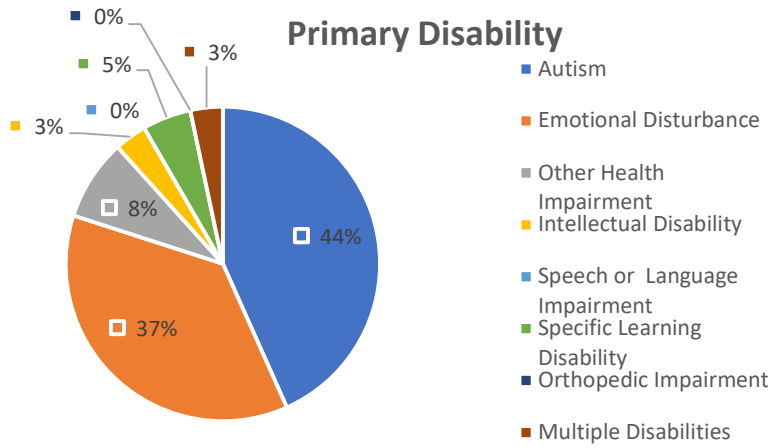

Parents will also have the opportunity to participate in the Western Association of Schools and Colleges (WASC) self-study accreditation process. We will seek their assistance to evaluate specific areas of our program through surveys, interviews, and group meetings.

Types of Services Provided

Spectrum Center Schools works cooperatively with local school districts to develop a customized curriculum for each student based on the student's Individual Education Program (IEP), abilities, interests, and goals. The Spectrum Center Schools meet state education standards and are based on the principals of Applied Behavior Analysis (ABA). ABA is a discipline devoted to the understanding and improvement of human behavior. Spectrum's ABA curriculum includes specific strategies for preventing behaviors of concern, teaching alternative appropriate behavior, teaching self-control strategies, improving learning skills and responding to behaviors of concern in a safe and respectful manner.

Spectrum Center Schools serve students with emotional disturbance or developmental disabilities who benefit from a consistent and structured program, with an emphasis on a successful transition to a less restrictive environment. The students receive individualized instruction in academic, social, and behavioral skills, including independent living and vocational skills in a low student to instructor ratio.

Spectrum Center Schools also serve students with autism, who receive a continuum of specialized education services in dedicated classrooms. Applied Behavior Analysis is the foundation of Spectrum's approach to teaching children with autism in an environment that is predictable, consistent, structured, and positive. Spectrum's curriculum for students with autism in highly structured educational settings involves repeated presentation of instruction and focuses on communication, behavior, social and academic skills in a low student to instructor ratio.

Therapy related services are provided by Spectrum Chino Valley Campus per the students Individual Education Program and all other services Speech and Language Therapy, Occupational Therapy, Adapted Physical Education, and Assistive Technology are provided by the District.
