"If you See Something, Say Something, is more than a slogan; it's how we protect ourselves, our loved ones, and our communities. You play a key role by recognizing and reporting suspicious activity."

- Department of Homeland Security

Hey it's a great time for your child to become more knowledgeable and aware with their peers and other individuals, that maybe identified as being "isolated" and "sad." The Sandy Hook Promise Initiative is not only a great resource and tool but it allows your child to be a cognizant citizen to be watchful and proactive and preventing potential gun violence due to symptoms of mental health illness.

- Ms. Lori

We just couldn't live without this cute picture of Cesar in the Newsletter.

Spectrum San Jose would like to welcome our new Counselor Ms. Lori. Her passion for school counseling began at a young age, but impacted her more during her time at Glenville State College in West Virginia. Ms. Lori has a bachelor's of science degree in Interdisciplinary Studies. She also has earned a Master of Science Degree in School Counseling. In the past 15 years Ms. Lori has worked not only as an instructor for Pierpont Community & Technical College in West Virginia, but also as Sign Language Interpreter for Fairmont University in West Virginia. Welcome Ms. Lori and we are thankful to have you here at Spectrum San Jose.

Our admin team is used to wearing different hats, or in this case, vests! We had some concrete work done this month and needed to redirect traffic towards Gate 3. They're always down for a challenge and have fun with it, like a special performance to the song YMCA!
