### **II. About This School**

#### **School Description and Mission Statement**

##### **About this school:**

Spectrum Center Schools have been serving special needs students with since 1975. The Rossier Park School has been serving special needs students in Orange County since 1980. We are a California Department of Education certified nonpublic school program.

Rossier Park School is a California State-certified nonpublic, nonsectarian school serving the special education needs of students from kindergarten through age 22 in Los Angeles and Orange counties. Rossier Park contracts with area public school districts to provide services through distinct programs. We offer a small structured and supportive environment that encourages growth and development in each of our students. Our goal is to assist students in their return to public school and /or the successful integration into their communities. Rossier Park School is committed to educating exceptional students with an individualized academic, behavioral, and therapeutic approach.

Spectrum Center Schools monitor progress on targeted campus goals quarterly. An Internal Accountability Review is conducted annually.

##### **Mission Statement:**

Our mission is to provide personalized, evidence-based educational services for non-traditional learners in collaboration with families and public-school districts.

#### **Opportunities for Parental Involvement**

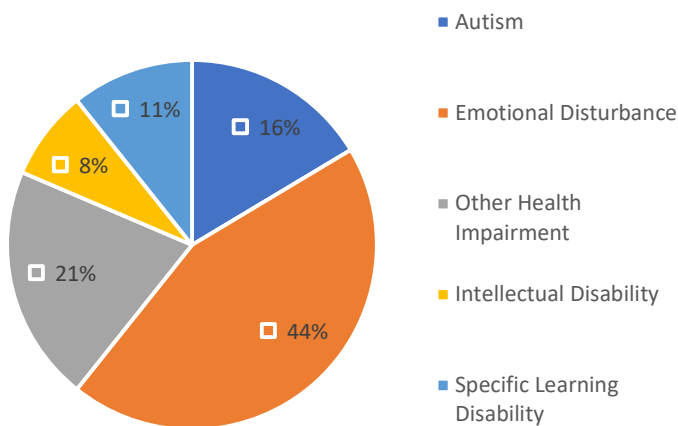

Parent involvement is encouraged throughout the school year. There is a Back-to-School night in October and Open House/Science Fair in May which all parents are encouraged to attend. In addition, teachers and parents work together to individualize means of daily communication (email, written logs, phone calls, etc.) that proves effective in the consistency between home and school. Additionally, we have an open-door policy where parents can schedule visits to their child's classroom throughout the year. Parents should contact their child's teacher or counselor to schedule a visit or for any information on how they can be involved.

#### Age of School Building

The Rossier Park School campus is a freestanding 2 story building situated on 1,638-acre parcel. The building was constructed in 1982 with a one-story office building constructed in 1978. The school area of the building has 15 classrooms, student store, multi-purpose room, maintenance rooms, counselor offices and administrative offices.

#### Maintenance and Repair

The Office Manager is responsible for all campus repairs and coordinates with the maintenance team to ensure repairs are completed. We recently replanted the grass on the PE field and have new signs out front identifying our

campus. Administration and administration support do weekly safety checks to ensure that the campus and classrooms are in good repair.

**Cleaning Process and Schedule**

Our campus employees two full time custodians to service our building and classrooms. Restrooms, classrooms, and kitchen are cleaned and mopped daily.

## IX. Student Performance

### Standardized Testing and Reporting

Our goal is to help students earn required credits and acquire necessary skills for success — now and in the future. The Student Growth Percentile (SGP) reports student progress compared to millions of academic peers in general and special education nationwide. The typical SGP score is at least 35 for reading. Spectrum Center students were on average five grade levels behind in at time of entry.

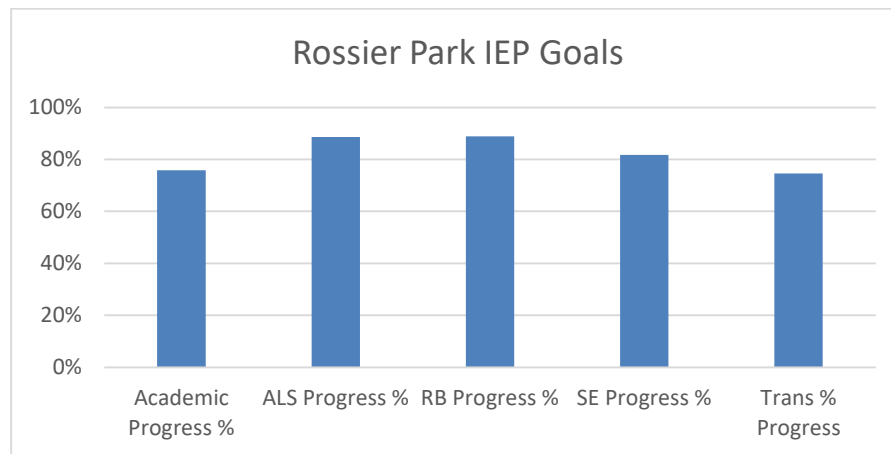

## Student Growth Precentile

### Other Student Outcome Data

#### Individualized Education Program (IEP)

Spectrum Center ensures students make progress on their Individualized Education Program (IEP) goals. The graph below shows the percentage of IEP goal progress for students in each of our learning environments.

## X. Accountability

### California Department of Education Certification (CDE)

The Spectrum Center Schools are all certified by the California Department of Education.

### Academic Performance Index (API)

The API is not applicable to Non-Public Schools.

## XI. Postsecondary Preparation

### Workability I

Spectrum Center is a state-approved Workability I Program (WAI) site. Workability I is a California transition program and is funded and administered by the Special Education Division of the California Department of Education. The Workability I Program provides resources for transition services with a primary focus on comprehensive pre-employment, work site training, and employment, along with follow-up services for youth in special education.

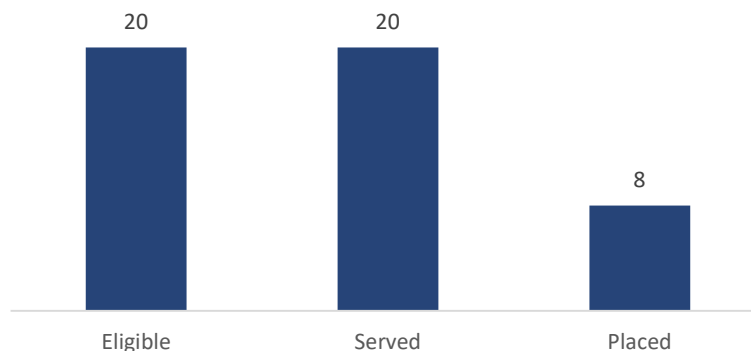

Spectrum’s WAI program goal is to provide students with the skills necessary to maximize the level of independence and productivity in their lives, assisting them into a quality adult life.

The State WAI model requires service delivery, data collection, documentation, and reporting in line with WAI's Array of Services. The WAI Array includes, but is not limited to, career awareness and exploration, career counseling, vocational assessments, pre-employment activities that promote employment readiness, job search skills, and job retention, work training, and follow-up services. Spectrum's WAI Program strives to include as many elements of these services as "best practices", based on individual student’s skills, abilities, and interests.

Spectrum’s WAI program offers pre-vocational / vocational training, and pre-employment and career planning services for students 14-22 aligned as much as possible with each student’s Individual Education Plans (IEP). As mandated in the IDEA 2004, and by the age of 16, transition planning, post-secondary goals, and individualized transition services will be addressed simultaneously with the development of the student’s annual IEP goals. The Individual Transition Plan (ITP) is based on age-appropriate transition assessments. Measurable post-secondary goals are developed based on students’ individual long-term objectives, interests, and preferences, and may include paid work training and other employment-related services. The development and practice of independent living skills are also a part of the long-term goals.

Pre-vocational and vocational training prepares students for future WAI subsidized or direct hire work training and employment opportunities, and includes, but is not limited to, pre-vocational/vocational tasks, mobility training, self-care, training in tolerance with time on task, work maturity standards and values, and the development of effective communication skills. The program features a strong community-based component. Research has shown that it is most productive for our students to learn skills in the natural environment where they will be later expected to demonstrate the skills. In this way, generalization is enhanced, and independence maximized.
