

From the Director's Desk—

Students are back in class and working hard. We are starting our 2nd Semester strong.

Our first highlight of the new semester is that we have our new school sign installed. See the photo to the right.

Our student population is now up to seven (7) students. We have welcomed AB and JB-B to our program.

We have added Anthony Camillieri as an IA1 (Biography will be provided next month).

Discussions are underway on changes coming in the Fall. More details as they become known.

What's happening

- Ms. Alicia led several lessons on Martin Luther King, Jr. in the time leading up to our day off for the MLK Jr. Holiday on January 16th.
- Besides our basketball set up in our recess area in back, we have added, at the request of students, a stand alone tether ball set. See pictures on the second page.
- Recent rains have raised our hopes for setting up our garden areas as soon as Spring is here. We are in the process of putting together the appropriate garden equipment for students and staff to use in growing chosen plants.
- Our on-site review took place on January 26th after being rescheduled from early December.

New Staff Introductions

Anthony Camilleri—To be provided next month
